Putin, Medvedev,

Its you own choice to have Russians fighting for IS.

You have created the atmosphere for it, yourself!

I aksed you in 2008 to help me turn ICC into a fari court of law.

You refused to do so.

You refused to remove UN Bankimoon from his job;

refuse to make EU turn ICC into a fair court of law.

The only example you set to your own People = 'I will fight and kill if I have to'.

You refuse to educate your people for conflict -ending with Laws & Treaty.

When are you going to make me your official war-advisor?

When EU is in full war?

ICC is now falsifying every file & trial they present to Earth.

In your barbarian world this is a perfect situation.

In my world it's 'building more war'.

When are you going to grow in Social Intelligence?
